<<< PORTFOLIO:  
[www.jankanna.github.io](http://www.jankanna.github.io)

## MAIN OBJECTIVE

I completed a Cybersecurity course by HackerU and the University of Warsaw, covering Linux, Windows Server, SIEM & SOC, privilege escalation, Python for hacking, web and mobile security, and OSCP preparation. I work with VirtualBox and Proxmox, can script in .ps1, .sh, .py, .html, .css, .js, .php, and understand network protocols, email, and encryption (using tools like Wireshark, airmon-ng, ARP Spoofing, scapy, and nmap). I dedicate all my free time to learning cybersecurity, focusing on hacking techniques and defense.

## CERTIFICATION

Advent of Cyber (2021, 2022, 2023) - TryHackMe  
Cyber Security (Red Team) (2022) - HackerU in cooperation with University of Warsaw

## SKILLS

### Language:

English (A2) | Russian (basic) | Polish (native)

### Learning Path / CTF

TryHackMe (AnJa), HackerOne (anjank)  
HackTheBox (AnJa)

### Programming Basics

GitHub: [github.com/JankAnna](https://github.com/JankAnna)  
Languages: Python, JavaScript, CSS, HTML, PHP, PowerShell, SH, Visual Basic, Markdown, SQL

### ERP Systems User:

ComarchERP, Exact Globe, SAP

### Engineering Software

Ansys Polyflow, SolidWorks  
SSEM (Single Screw Extrusion Model)  
Autodesk AutoCAD, Autodesk Moldflow,  
Brabender Plastograph EC Plus  
Dantec Dynamics BSA Flow Software for LDA  
Microsoft Office (including basic macros)

### Security & Virtual Labs

Security Lab setups in Proxmox and VirtualBox  
Docker, NOX, Genymotion, Kali Linux, pfSense  
with Splunk, Active Directory, WordPress

## WORK EXPERIENCE

### SALAG Sp. z o.o. Sp.k

*production office manager* | 4/2022 - present

entering technological data into the ERP system and their supervision  
preparation and analysis of cost reports  
preparation of procedural documentation: technological card, technological instruction etc.  
planning and organization of production  
supervision over warehouse operations in the ERP system  
procurement and logistics of deliveries

*production specialist* | 1/2017 - 4/2022

### AQUAEL Sp. z o.o.

*the supply specialist* | 5/2016 - 1/2017

planning and purchasing materials for production.  
coordination of activities and customs handling of deliveries.

### "SUDOWIA" Dairy Cooperative in Suwalki

*trainee* | 7/2015

### A study trip to Germany

*trainee* | 6/2015

Familiarization with the activities of the plants:

SernMaid GmbH&Co. (Wittenburg) | Apostels Jpgurth Productions GmbH (Garbsen) | GEA Wesfalia (Oelde) | browarnia Potts (Oelde) | Biogas Plant Neuried (Offenburg) | Wine Cooperative Oberkirch

## ACADEMIC BACKGROUND

### HackerU in cooperation with University of Warsaw

*Extension course: Cyber Security (Red Team)* | 9/2021 - 4/2022

*Verification course: Red Team Sorting* | 8/2021

### Warsaw University of Technology

Faculty of Chemistry

*Field of Study: Plastic Technology and Processing*

*Postgraduate studies* | 2018 - 2019

Thesis topic: Injection mold design

### University of Warmia and Mazury in Olsztyn

Faculty of Food Sciences, Department of Process Engineering and Aparatus

*Field of Study: Chemical and Process Engineering*

*Specialization: Food Engineering* | 2012 - 2016

*Degree: Bachelor of Engineering*

Thesis topic: The velocity distribution in the static mixer

## HOBBIES AND INTERESTS

computer graphics / CAD,  
chemical and process engineering,  
cybersecurity / CTF  
programing: python, bash, javastript
